

Help when you need it most

A photograph of two elderly women sitting on a dark leather sofa, laughing heartily. The woman on the left has short pink hair and is wearing a colorful floral cardigan over a black top. The woman on the right has short grey hair and is wearing a white cardigan with a dark floral pattern. They are both wearing glasses and appear to be in a comfortable, indoor setting.

Introduction

Help when you need it most

We can all benefit from a bit of extra support at some stage in our lives. This could be due to age, ill health, disability, mental health problems, financial worries or language barriers.

Our Priority Services scheme is free and registering allows us to help our customers who would benefit the most from extra support and respond quickly to their particular needs. Every two years we will contact you in case we need to update your details, just to make sure you are receiving the right support.

This leaflet explains the support that is available if you register for Priority Services. If you do not feel you need these services, please consider whether a family member, friend or neighbour would benefit from Priority Services and pass

this information to them. Our Priority Services are available to our customers who live in the North West area. You do not have to be the named bill payer to benefit from Priority Services.

It's easy to register:

- Visit **unitedutilities.com/priorityservices** and fill in the online form
- Fill in the enclosed application form and post it back to us
- Call us on **0345 672 2888**

If you wish to register a friend or family member on their behalf, please call us. Once registered, you'll then be able to update your details online at any time if any of your needs change.

Section 1

Priority Services... communicating with you

Dedicated team on hand to help

When you register for Priority Services, you get access to a dedicated team specially trained to help with your questions.

You can also tell us how you would like us to contact you and we will use that method for all future communications.

Nominee scheme

If you have difficulty communicating or find it hard to understand your bill and other information you receive from us, you can nominate a carer, family member or friend to speak to us on your behalf. This person could also call us to register you for Priority Services if you cannot fill in the enclosed form or talk to us yourself.

We can also send your bill to the person you nominate if it helps, but please remember that you will still be responsible for paying the bill.

Text Relay service

If you have hearing or speech difficulties and use a textphone, you can access our Text Relay service by dialling 18001 followed by the number you need. This service applies to all the numbers shown in this booklet. Your call will be connected to a Text Relay service, through which one of our customer service agents will be able to help with your enquiry.

Bills in braille, large print, on coloured paper and ‘talking’ bills

If you have difficulty reading your bill, we can produce it in different formats such as braille, large print or on coloured paper. We can also phone you to talk you through your bill to make sure you understand what you are paying for.

Password scheme

When you register for Priority Services you can choose a password. Then, if we ever need to visit you at home, we will give you the password so you know the caller is genuine. This will help to protect you from bogus callers (people who pretend to be from United Utilities to gain access to your home). All of our engineers carry identification cards, so if you are unsure, call us on **0345 672 3723** to check. We won't mind.

‘Knock and wait’ service

When we call at your home we will wait outside for a longer period of time after knocking.

Translation services

If you would prefer to talk to us in a language other than English, we can arrange an interpreter, free of charge, to communicate with you using our translation service when you call us. Our website can also be changed in a way that could suit your needs and help you online by clicking on the 'Accessibility help' button located on the bottom right of the screen.

Leaflets available on our website

Our website contains all our information leaflets so you can download them without having to contact us.

Webchat

You can communicate with us on our website using our online webchat service.

Section 2

Priority Services... and your water supply

Notice of interruptions to your water supply

Occasionally, we may need to turn off your water supply, either because a pipe has burst or because we're doing some important maintenance work.

If we have to turn off your water to carry out planned maintenance work, we will always tell you beforehand when this is happening.

There will be times when it's not possible to tell you before we need to turn your water off, for example if there is a burst water main. If this happens we will contact you, to make sure you are kept informed about what is happening.

Alternative water supplies

If your water supply is likely to be off for more than 12 hours, we will try to make water available in your area using other means. We will contact you in an emergency to understand how we can help.

Support if you have a medical need for water

We provide extra help if you have a medical need for water, for example, if you need dialysis at home. We will contact you as soon as possible if we need to turn off your water supply in an emergency such as a burst water main, and try to time any planned work, so they don't happen on the day of your dialysis.

Your hospital should have already registered your details with us if you have dialysis at home, but you can also tell us this when you register for Priority Services.

If there is a burst water main which means we need to turn your water supply off, our dedicated team will contact you as soon as we can.

Flooding

If you are a Priority Services customer and suffer flooding from the sewers, you can contact our dedicated team and we will arrange to visit your home to help with cleaning up the mess. If you have to move out of your home while we clean up, we'll suspend your bills during the time you're away from your home.

Help with your water meter

If you have a water meter and find it difficult to get to it or read it due to a disability, we may be able to help by moving the meter to a more accessible place, as long as your plumbing arrangements allow this. If you are blind or partially sighted, we can also arrange for your meter to be read every three months to help you keep track of how much water you are using.

Section 3

Priority Services... when you're struggling to pay your water bill

We all have times when it can be difficult to make ends meet. Losing a job, divorce, a death in the family, or illness can all have a major effect on household income and cause a strain on your finances.

If you're struggling to pay your water bill, our message is simple – don't suffer in silence. We're easy to talk to, and the last thing we want is for you to worry about it.

As a Priority Services customer, you have access to a dedicated team who can offer advice and support to make sure that your bills are not keeping you awake at night. We have a range of support schemes to help you depending on your circumstances.

You may be better off with a water meter

A water meter can be a great way to reduce your bill. If you live on your own, or as a couple, it is well worth checking if you could make savings by having a meter fitted.

Visit unitedutilities.com/meters or call our team on **0345 672 2888** to find out more.

Section 4

Register for Priority Services today

It's easy to register for Priority Services, you can:

- visit unitedutilities.com/priorityservices and fill in the online form; or
- fill in the enclosed application form and post it back to us for free;
